About Rahul Pharma

Rahul Pharma supplies medicines to government and private hospitals through tender contracts. The business depends on winning tenders, managing inventory, delivering on time, and collecting payments from hospitals.

Business Challenges

Low tender win rate

Delayed deliveries

Expired medicines

Outstanding payments

Supplier delays

Limited visibility into performance

Who Uses This Dashboard

Stakeholder	Responsibility
 Managing Director	Business decisions
 Tender Team	Tender management
 Finance Team	Payment tracking
 Warehouse Team	Inventory management
 Procurement Team	Supplier management
 Logistics Team	Delivery management
 Compliance Team	Audit & compliance monitoring

Source: Business Requirements Document (BRD)

Problems and Their Business Impact

Business data was spread across multiple Excel files, with no single view of performance. This made decision-making slow and difficult for management.

Business Problem	Business Impact
 Tender rejection	<i>Revenue loss</i>
 Delivery delays	<i>Customer dissatisfaction</i>
 Medicine expiry	<i>Inventory loss</i>
 Pending payments	<i>Cash flow issues</i>
 Supplier issues	<i>Operational risk</i>
 Compliance issues	<i>Increased business risk</i>

Source: Business Requirements Document (BRD)

Project Goals

Improve tender success rate

Monitor profitability

Track delayed deliveries

Reduce medicine expiry risk

Improve payment collection

Improve supplier performance

My Business Analyst Approach

This tells interviewers how I think and work as a Business Analyst start to finish.

Power BI Dashboard

This full set of deliverables shows end-to-end BA work — from gathering requirements to building the final dashboard.

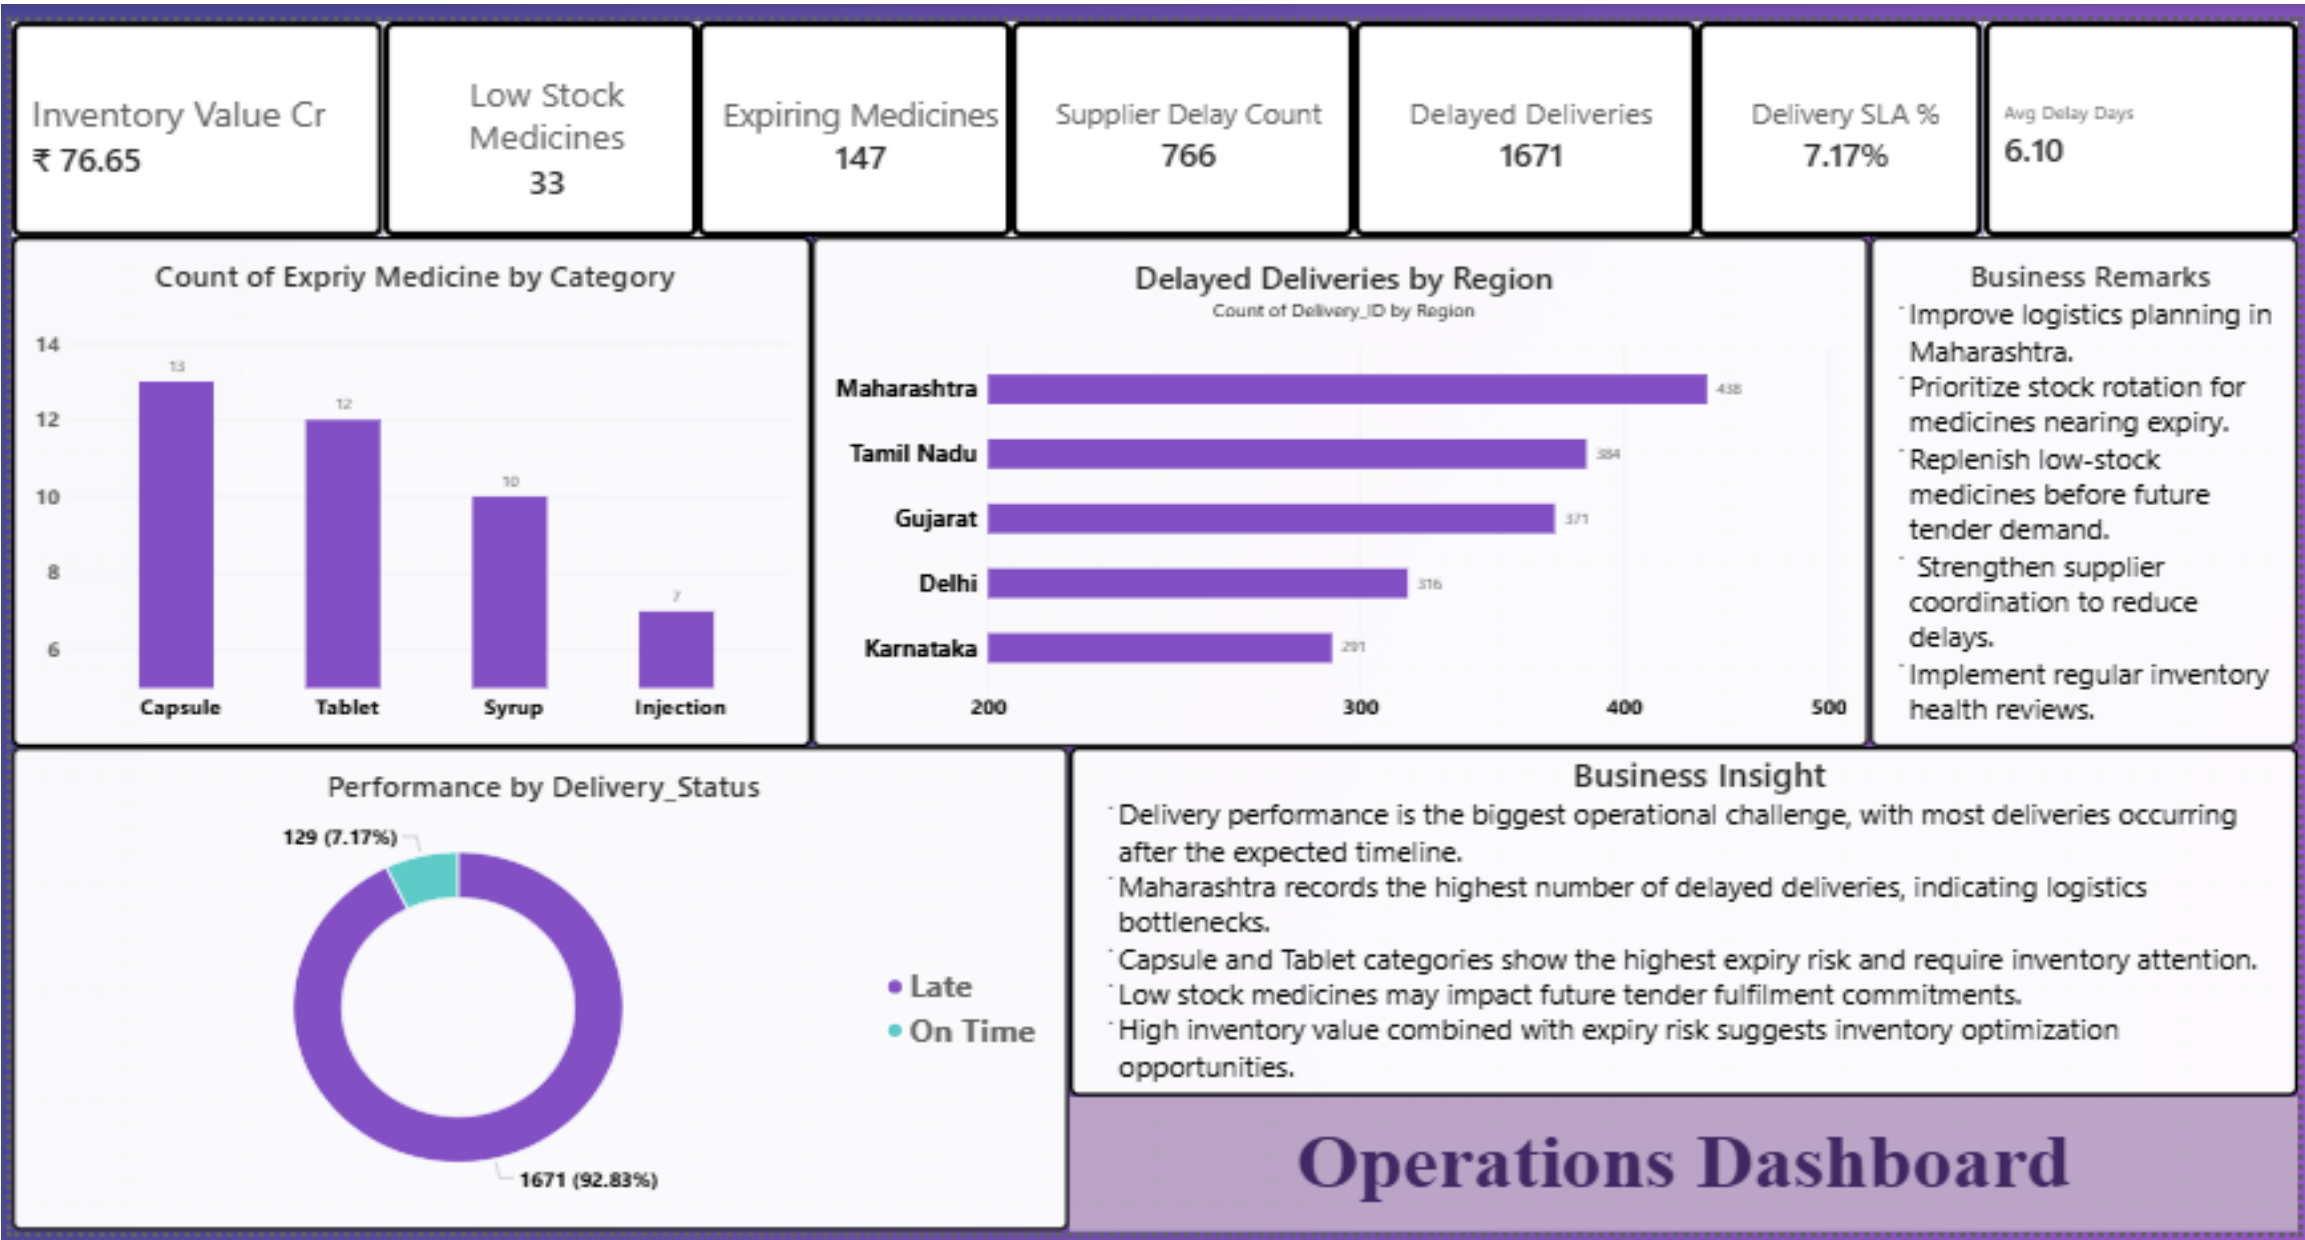

ER Diagram : How the Data is Connects ?

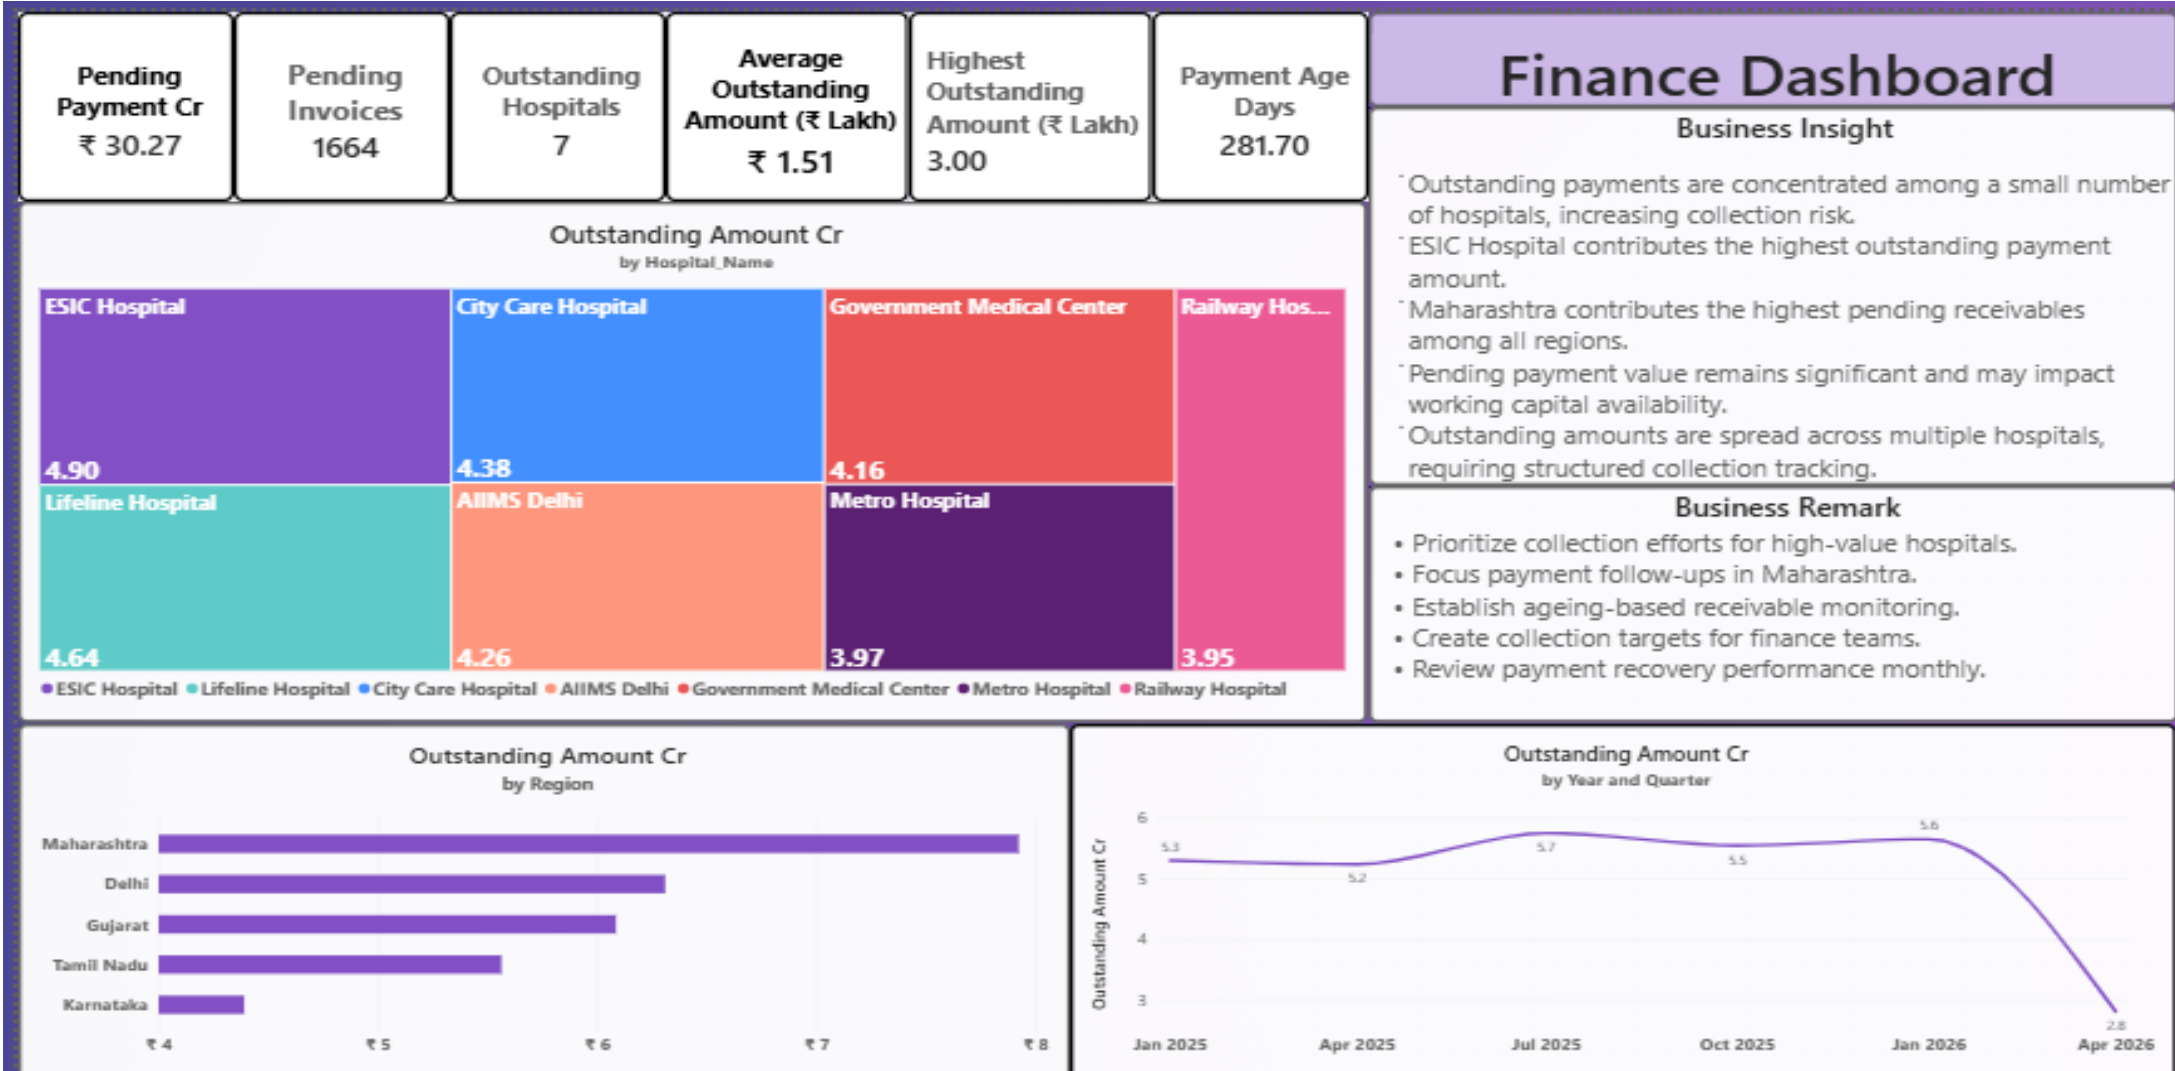

Tender_Master holds tender details. Sales_Fact links each invoice to its tender and medicine, and feeds Medicine_Inventory and Payment_Tracking. Supplier_Master connects through Medicine_Inventory to track supplier-linked stock.

Executive & Tender Performance

Finance Dashboard

Turning Raw Data into Business Insight

</> Tender Win Ratio

```
SELECT tender_status,  
       COUNT(*) AS total_tenders  
FROM tender_master  
GROUP BY tender_status;
```

143 of 200 tenders won — overall win ratio of 71.5%.

</> Revenue by State

```
SELECT tm.Region,  
       SUM(sf.Sales_Amount)/1000 AS Revenue_K  
FROM tender_master tm  
JOIN sales_fact sf ON sf.Tender_ID=tm.Tender_ID  
GROUP BY tm.Region;
```

Maharashtra generates the highest revenue; Karnataka the lowest.

</> Average Delivery Delay by State

```
SELECT  
tm.Region,  
ROUND(AVG(dt.Delay_Days),2) AS Avg_Delay_Days  
FROM delivery_tracking dt  
INNER JOIN tender_master tm  
ON dt.Tender_ID = tm.Tender_ID  
GROUP BY tm.Region  
ORDER BY Avg_Delay_Days DESC;
```

Average delivery delay by 6 days .Highest numbers of delay of deliveries is i Maharashtra

</> Outstanding Payments

```
SELECT Hospital_Name,  
       SUM(Due_Amount) AS Pending_Amt  
FROM payment_tracking  
WHERE Payment_Status='Pending'  
GROUP BY Hospital_Name  
ORDER BY Pending_Amt DESC;
```

ESIC Hospital carries the largest pending payment balance.

Key Recommendations

Tender

- Improve bidding strategy for Emergency tenders
- Study Delhi's approach to lift Maharashtra's win ratio
- Maintain present a winning ratio while developing strategy for other states

Operations

- Improve logistics in Maharashtra
- Reduce delayed deliveries
- Improve a tracking system and fixed a responsibility of On time delivery with concern person.
- Prioritize stock rotation for medicines nearing expiry.

Finance

- Prioritize collection from top hospitals
- Implement receivable ageing tracking
- Create collection targets for finance teams.
- Prioritize collection efforts for high-value hospitals.

Before vs After the Dashboard

Before Dashboard

- Data stored in multiple Excel files
- Manual reporting
- Delayed decision-making
- No centralized monitoring

After Dashboard

- Single source of truth
- Faster reporting
- Better visibility of tender performance
- Better inventory & payment monitoring

This directly matches the BRD objective: a centralized reporting solution for tender, inventory, supplier, logistics, payment, and compliance activities.

Expected Benefits

Better tender decisions

**Faster payment
collection**

Reduced stock shortages

Lower expiry losses

Improved profitability
