

Total Tender	Won Tender	Win Ratio	Total Revenue Cr.	Total Profit Cr	Profit Margin %	Executive & Tender
200	143	71.50%	₹ 175.32	₹ 31.51	17.97%	

Business Remarks

- Continue focusing on high-performing states.
- Review bidding strategy for Emergency tenders.
- Expand tender participation in lower-performing states.
- Monitor profit margin before increasing bid volume.
- Reduce dependency on a small number of high-revenue regions.

Business Insight

- Rahul Pharma wins nearly 72% of participated tenders, showing strong tender conversion.
- Maharashtra contributes the highest revenue and remains the strongest business region.
- Revenue performance is concentrated in a few key states, creating dependency risk.
- Emergency tenders perform below other categories and may require bid strategy review.
- Current profit margin indicates that tender growth is being achieved without major profitability loss.

Inventory Value INR Cr.	Low Stock Medicines	Expiring Medicine	Super Delay Count	Delayed Deliveries	Delivery SLA Per. %	Avg. Delay Days
₹ 76.65	33	147	766	1671	7.17%	6.10

Business Remarks

- Improve logistics planning in Maharashtra.
- Prioritize stock rotation for medicines nearing expiry.
- Replenish low-stock medicines before future tender demand.
- Strengthen supplier coordination to reduce delays.
- Implement regular inventory health reviews.

Business Insight

- Delivery performance is the biggest operational challenge, with most deliveries occurring after the expected timeline.
- Maharashtra records the highest number of delayed deliveries, indicating logistics bottlenecks.
- Capsule and Tablet categories show the highest expiry risk and require inventory attention.
- Low stock medicines may impact future tender fulfilment commitments.
- High inventory value combined with expiry risk suggests inventory optimization opportunities.
